Create your own Castaway Paradise experience!

Some people see being shipwrecked as a problem, while others see opportunity! It's vacation time, so why not visit Castaway Paradise?

Inspired by classics like Animal Crossing and Harvest Moon, Castaway Paradise is a perfect holiday for people of all looking for a getaway from the rush of modern life. Recreate yourself and live the life you want on a peaceful tropical island. Never get bored as you explore, grow plants, catch fish and bugs, and help the local villagers rebuild the island after a storm.

Stolen Couch Games worked together with fellow Dutch game studio Codeglue on the console ports. Developer Eric Diepeveen said: *"Castaway Paradise on consoles was a no brainer. We haven't seen many life simulators here, plus it's great to give players the option to play the game on whichever platform they like!"*

When you need a break, head back to your house. Choose from hundreds of options as you decorate with furniture, wallpaper and floors. Express yourself as you pick your clothes from hundreds of items for all weathers and any social occasion! Make the island itself your own - it's your chance to build your own slice of paradise!

### Features
